

## Price list (all prices plus V.A.T.)

The eCl@ss license fees are used to support further development, internationalization as well as eCl@ss standardization. The price depends on company size and as such takes the individual economic capacity of the eCl@ss user into consideration.

Acquiring an eCl@ss license – regardless of its price or licensing model – requires registration and ordering through our DownloadPortal.

**In each case, our prices apply to a release in one language only and are – unless stated otherwise – non-recurring prices.**

Starting from version 7.0 eCl@ss is available in two export file formats: **BASIC** and **ADVANCED**.
